

DIGITAL LEARNING PARENT GUIDE

As we return to Remote Learning in January 2021, please find the following guidelines to help you support your child at home. All learners now have their own iPad and teachers have created a Microsoft Team for each class. We are expecting learners to follow their usual school timetable to access work each day. Information on Digital Learning and using iPads in school is available on the school website homepage.

What is expected of me?

- I should ensure my child logs into their Class Team to access their learning every day.

How will my child submit the work?

Learners will submit work as directed by their teachers. This can be done by

- using **Microsoft Teams** to upload work to the teacher
- using **GLOW email** - see link on the school website

Guides to using Glow can be found at

<https://glowconnect.org.uk/about-glow/glow-for-parents/>
<https://glowconnect.org.uk/about-glow/glow-for-learners/>

Please contact Mrs Lynch if your child is experiencing IT issues with their iPad, using Glow or Microsoft Teams:
 via Glow email gw07lynchcarol3@glow.sch.uk

What if my child does not submit the work?

- I may be contacted by the school and support will be offered.
- I can contact the school myself for support.

Note: Please don't worry about what you or your child can/can't do. These are unusual times. We can only do our best. Try to check twitter, facebook and the school website regularly for updates or contact Pupil Support Teachers for advice.

If I am really worried about anything or wish to speak to someone,
 I can contact the school on **0141 582 0140**
